

Helping Communities
Help Schools

ATTENTION PARENTS

Did you know that teachers spend an average of \$1,200 a year of their own money purchasing materials for their classrooms?

Your help is greatly appreciated.

By adopting my classroom, you can participate in my efforts to create an effective and engaging learning environment for the students.

Here's how it works:

1. Go to www.adoptaclassroom.org and search for my classroom.
2. Adopt-A-Classroom directs **100% of your donation** to my classroom.
3. I access the donation through the Adopt-A-Classroom website (the organization does not send cash to the teachers) and **purchase much needed resources.**
4. **Adopt-A-Classroom sends you a report** that itemizes what I purchased ensuring 100% accountability and transparency.
5. We **communicate throughout the year** so you can experience first-hand the impact of your contribution.
6. Your donation is **tax-deductible.**
